Co-Host Bios

Jessi Cisewski-Kehe is an Assistant Professor in the Department of Statistics and Data Science at Yale University. She completed her Ph.D. in Statistics in 2012 from the University of North Carolina at Chapel Hill, then spent three years in the Department of Statistics at Carnegie Mellon University. Jessi is the co-Founder and past-Chair of the American Statistical Association Astrostatistics Interest Group, a council member of the International Astrostatistics Association and co-Chair of the affiliated Cosmostatistics Initiative. She is an Editor for Astronomy and Computing.

Susan Wang is a Data Scientist at Google (YouTube). She previously served as Lecturer at Yale University and Amherst College. She completed her Ph.D. in Statistics in 2014 from Yale. Prior to pursuing her Ph.D., Susan worked at a weather derivatives startup and as a retirement actuary at Mercer (and subsequently co-authored an actuarial exam [textbook](#) for the 4th exam). Susan also has 7 years+ of experience consulting on statistics-related projects with small-to-medium sized companies and statistics textbook publishers.
